MILL WRIGHT.

AFTER AN EXPERIENCE OF TWENTY years in my business I offer my services to the public, to build Mills, and set in running order Circular Saw Mills now in use, both double and single; simultaneous and Independent setting Screw Headblocks, two or more combined and the best friction feed in use. It is operated with a single lever, in front of the saw or the outside the carriage, thus saving one hand in the Mill. The double mill requires about one half the power to cut the same amount of Lumber, as the single Mill requires.
I will also put up Cotton Gins, Corn and Flour Mills.

WEDNESDAY, JULY 28, 1869.

Correspondence.

RALEIGH, N. C., July 6th, 1869.

R. KINGSLAND, Esq.,
N. C. Land Company:

DEAR SIR:—Your note of the 3rd inst., is before me, in which you request my opinion in writing, whether it would be safe for citizens of the Northern States to visit this and other sections of North Carolina at this season of the year. It affords me pleasure to say in reply, that I am decidedly of the opinion it would not be attended with any risk to health for residents of the North, or elsewhere to visit or sojourn in Central or Western North Carolina during this or any other season. I commenced the practice of medicine in the village of Pittsboro, the county seat of Chatham county, 33 miles south-west of Raleigh, in the Spring of 1828, and continued to reside there until 1839, when I returned to Raleigh, my native town. Since then I have resided here, actively engaged till now, in the practice of my profession; a large portion of my practice being in the country adjacent. While a resident in Pittsboro, physicians not being so numerous as now, I frequently visited the counties of Moore, Randolph, Orange and Wake, and since my removal to this place, I have been occasionally been called, professionally, to the counties of Cumberland, Granville and Franklin, in addition to those previously named. I mention these circumstances as indicating the scope of professional experience on which my opinion is based. Thirty or forty years since, in this section of the State, we anticipated and annually had endemics of Intermittent and Billious Remittent Fevers during the Summer and Fall months. These were not infrequently extensive in their prevalence and severe in type. Medical authorities concur in the opinion that some emanation from marshy or low lands, produces the above name endemics, though I believe, the profession is yet ignorant of the nature of such emanations, or circumstances which give occasion to endemic affections. For fifteen or twenty years past, notwithstanding the rapid increase of population, there has been so marked a diminution of the above disease both as to virulence and frequency of recurrence (lands having been extensively cleared, drained and cultivated) that they are now comparatively rarely met with, and there has consequently been a corresponding decrease of the diseases incident to Winter and early Spring, Pneumonia, Billious Pleurisy, &c. From observation and experience, I confidently believe, there is no portion of our country more salubrious than Central North Carolina.—From information derived from competent and reliable professional sources, I believe the above statements equally applicable to most of the Northern and Western Counties of this State.

Very respectfully, your ob't serv't,
WILLIAM G. HILL, M. D.

RALEIGH, N. C., July 7, 1869.

To the North Carolina Land Company:

GENTLEMEN:—At your request I present you a statement as to my experience relative to the health of what may be termed Middle North Carolina.

I have practiced medicine in this city and the surrounding country for the last thirty years. During that time I have met with but few epidemics, but have seen the usual epidemic diseases incident to the location. As to the epidemics which prevailed here during that time, I can say with truth that if there is any section of the United States more highly favored than another, it is this portion of North Carolina. While many portions of the country are visited with pestilential diseases, we neither feel or apprehend any danger from them—I have never known an epidemic of any character to appear here, but what it was of a modified nature, and but very seldom, if ever, proved of an aggravated form. This is attributed entirely to our location, being exempt from all contact with those infectious and contagious diseases that infest seaboard towns; and, by the time they reach here, they have undergone that modifying influence by the climate, so as to destroy, in a great measure their virulence. We are exempt from the extremes of either heat or cold of northern winters or tropical climates; the monthly mean temperature being 58 87 and the summer and winter mean being 75 35 and 43 65. The epidemic diseases are such as is to be found in any locality, varying with the seasons, and yielding to the mildest measures. I cannot conceive how it is possible for any one to hesitate for a moment about visiting at all seasons of the year, or settling in this section of the country, especially if health is their object, to say nothing about the fertility of the soil, society and the general improvements, with all the facilities for transportation.

From the mortuary tables as reported by the census of the United States, I have made a complete analysis of several of the most healthy locations as reported by them, and compared them with the same number of Counties with a relative amount of population as that in Middle North Carolina; and find that there is twenty-six per cent. in favor of the health of this section of country to all other places. In submitting this statement, I do it with no desire to detract from any other section of the country, but to aid in the vindication of the truth of what is due to the section of the State in which I live, and to aid you in your laudable work.

Yours very respectfully,
W. H. MCKEE, M. D.

RALEIGH, N. C.
July 3rd, 1869.

R. KINGSLAND, Esq.,
North Carolina Land Co.,

DEAR SIR:—It affords me pleasure to reply to your note of enquiry, requesting my opinion as to the general healthfulness of North Carolina. At one time during the late war, it was made my official duty to collect information in regard to the climate and healthfulness of the Southern States.—From the investigations then made, and my previous and subsequent experience, I am clearly of the opinion, that North Carolina is *the best* of the Southern States in respect to equability of climate and freedom from epidemic diseases, and if not the first she is in the *front* rank, as regards general fertility of soil and ease of cultivation. I have been practicing medicine in this section of the State for nearly twenty years, and during that long period I have never known its inhabitants afflicted by cholera, yellow fever or any other fatal epidemic peculiar to a Southern climate.

The impression of a great many northern people that our Summers and Falls are so very hot, is an erroneous one. The thermometer rarely indicates a temperature above 90 deg. in the shade, and the average temperature is less than in New York or any other large city, during the seasons named. You came here with your family in January last, and I was informed by Mrs. Kingsland, a few days since, that the members of your family never enjoyed better health before they came to North Carolina, and I know other Northern families, who have come here since the war, who have made me the same statement. You can assure your northern friends, who are making daily enquiries of your office, relative to our climate, lands, mineral resources, water powers, &c., that they can come to a very large, if not the greater portion of our State at any season of the year, and that they will be as safe as regards health and in all other respects, as in any Northern or Western State. Are you aware of the fact that the people in the Eastern portion of State make six good paying crops in one year, viz: fish, wheat, rice, corn, peanuts and cotton. What other State can equal that?

Very Respectfully,
E. BURKE HAYWOOD, M. D.

RALEIGH, N. C., July 5, 1869.

R. KINGSLAND, Esq.,
North Carolina Land Company:

Your note, requesting my opinion on the subject of Northern citizens coming to this State to live, and the probable effects of the climate upon their changed residence, is to hand. While I know, from personal experience, that the prevalent notion at the North is, that those who come here from that section will necessarily get sick, still it is an erroneous opinion, as the testimony of the various Northern families who have lately come here to reside will show. All those of whom I have enquired, assure me that the general health of their families is as good here as at the North, and in many cases, there has been much benefit derived from the change.

I don't think those citizens of the North who contemplate coming here to live, have any cause to hesitate on account of the healthiness of the climate. Our climate is mild and equable, and not subject to those epidemics, that they will not also find at at North.

During the war, I was connected with two of the General Military Hospitals at Raleigh, and while connected with them, there was treated in the wards between thirteen and fourteen thousand cases of different diseases; most of those cases were such as are found also in Northern hospitals.

I know of no cause why the citizens of the Northern States should fear our climate, except their ill founded traditional reports of its unhealthiness.

Very Respectfully,
Your Ob't, Serv't., &c.,
WM. LITTLE, M. D.

SAY OF THE
BROOKLYN LIFE!

"A Company that makes such endorsements on its policies, gives the strongest pledge that it will fulfil its trust faithfully, and keep its reserves sufficient."—HON. ELLIOT WRIGHT.

"The BROOKLYN LIFE has placed itself in the vanguard of insurance reform, and is the first Company that has done full and complete justice to the insured."—INSURANCE TIMES, Jan. 1869.

THE BROOKLYN LIFE, ALONE OF ALL OTHER LIFE INSURANCE COMPANIES, GUARANTEES A DEFINITE SURRENDER-VALUE IN CASH, AND EVERY POLICY ISSUED BY THAT COMPANY, BEARS A CERTIFICATE STATING WHAT THIS EXACT WORTH WILL BE IN DOLLARS AND CENTS, AT ANY TIME, AFTER THE PAYMENT OF TWO OR MORE PREMIUMS.

"The BROOKLYN LIFE has made no half-way work of the adoption of this inestimable feature. It is noteworthy, in this connection, as a merited tribute to the excellent Company (Brooklyn Life,) which has so gallantly raised the standard of reform in Life Insurance, that we find in the whole list of existing Companies, few competitors which deserve so much credit in respect of economy of management, or care, skill and judgment in the selection of risks."—INS. THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

WEDNESDAY, JULY 28, 1869.

Conservative and Democratic Nominee.

FOR SENATOR,

FOR THE NINETEENTH DISTRICT,

JOSHUA PERRY,

OF FRANKLIN.

MORTAL OFFENCE GIVEN TO THE GOVERNOR.

Judge Pearson's letter to Colonel George Little, President of the North Carolina Land Company, must have given mortal offence to Gov. Holden.

If tranquility prevails; if "peace" has come at last; if "North Carolina is again the land of steady habits," as declared by the Chief Justice, why is it that our "Truly Beloved," the Governor, is seized with such convulsions of terror, because of the treason riot and rebellion which he declares exist?

The most timid man of the South declares that tranquility prevails. Last Summer, it will be remembered, Judge Pearson was greatly alarmed for fear that another rebellion would be brought about by Frank Blair who had periled his life for four years to put down the Judge himself as a rebel and traitor.

Judge Pearson had no fears of Governor Holden, Judge Dick and Judge Thomas, who signed the ordinance of secession, but he feared the loyal, Union-loving Frank Blair. Verily, what strange turns our fears do take.

Governor Holden testified to President Johnson to the loyalty and good order that prevailed in North Carolina, until the people refused to elect him Governor, then convulsions of terror seized upon him, and he began his agitations for election. No man was loyal who did not declare for him. He seems determined that no night shall follow the day of his agitation. For twevve months he has been wringing his hands, brandishing his black cane, going from one drinking saloon to another, consulting with low detectives, instead of statesmen, defying and insulting first the Supreme, and then the City Court, by public speeches applauding and approving a lawless mob, which assembled for tumult and blood, but was appeased by the sight of a single pistol in the hands of a single man.

As if there was no civil law in the land, he orders the drums of the militia to be beat to call his men to arms. Some of the most dissolute and abandoned answer to the call, and are sent to keep the peace among men of property, probity and character.

The good citizens could not be provoked into a fight with the militia rabble. The militia straggle off for home and when they reach Goldsboro, all, or most of them drunk, they turn in and slay each other.

The Governor is sunk in despondency He fails to get up a riot or a fight, except among his own wretched followers.

The Governor's militia are disbanded—one to the grave, two to the jail at Raleigh, and two to the jail at Goldsboro—and many to the grog shops. What a sad lesson to a sensitive mind must be the Governor's military expedition to Jones county? What a rebuke to his cowardly, but favorite policy of armed detectives in time of peace.

The Governor did not attend the funeral of poor Putney, who lost his life in his cause; was it shame or was it grief, that kept him from the grave of his victim? or was it fright and fear of meeting the widowed mother of the murdered son, who might in her agony have pierced his ear with a curse upon the Governor who in time of peace calls forth armed detectives and police?

INJUNCTION GRANTED BY JUDGE WHITE.—A bill in Chancery having been filed by Cols. G. W. Scott and J. J. Williams, complainants, praying for an injunction restraining the issue of State bonds under a pretended act of the last Legislature, known as the Railroad bill, a hearing was had before his honor Judge White on last Tuesday, the complainants being represented by Messrs. Hilton and Brevard. After argument, and a delay of a day or so, his honor granted a temporary injunction.

It will be seen by an order published elsewhere, that the defendants are ordered to appear, residents within two months and non residents within four months, and answer the complainant's bill, or the same will be taken *pro confesso*.

The *Weekly Floridian*, from which we take the above paragraph, has the following in relation to the little manipulation of Florida records, in which operation, it is more than suspected a certain operator known in North Carolina swindling acts, had some hand:

RASCALITY IN FLORIDA.—Our Tallahassee correspondent, says the Savannah *Republican*, details a bit of rascality in that State, in the mutilation of the records of the Legislature, that shows how utterly abandoned have become the adventurers who come South in search of money. The villainy having been discovered, no doubt the parties will be thwarted in their attempt at robbery; but is there no way by which such rascals can be held responsible to the criminal law and sent to the Penitentiary? What protection has society against rogues if they are only to be made to disgorge when caught with their plunder? Besides this disgrace, which should follow such men wherever they go, the law should take hold of them and vindicate its majesty by inflicting exemplary punishment.

"THE INFLUENCE OF THE VIRGINIA ELECTION.

From an article in the *Standard* of yesterday, under the above title, we clip the following sentences, which do not lose their significance by being separated from their contexts:

"The influence of the Virginia election has been felt throughout the country, but most strongly in the South. In North Carolina its influence has been felt more than in any other State."

"Thus the result of the Virginia election has sensibly affected North Carolina politics, and will eventually work a great change in our political *status*. It has proved that the time for ultra and proscriptive measures has passed, and that passion must give way to reason."

"It has proved that proscription for opinions' sake, will no longer be tolerated in the South, and that the party which is to control the destiny of the South in the future must be governed by liberal principles, and be non proscriptive in its measures."

"The triumph of Walker in Virginia will do much to bring about the triumph of similar principles in every State in the South."

"Let 'Universal Suffrage and General Amnesty' be the rallying cry, and soon the last vestige of the Radical Democracy will be swept from the South."

From these extracts, as well as from the whole tenor of the article from which they are taken, may be deduced the following:

1. The *Standard*, now, whatever may have been its former proclivities, claims assimilation with the Walker Conservatives.

2. It deprecates and opposes proscription for opinion's sake.

3. It desires the success of the principles and policy of the Walker Conservatives in Virginia throughout the country.

4. It takes its stand squarely for universal suffrage coupled with general amnesty.

Now, let us see how the preaching and practice of the *Standard* and its party in North Carolina agree.

It is a well known fact, and one that will not be controverted by the *Standard*, we presume, that the Walker party in Virginia opposed, and were opposed by, the Union Leagues in that State. This fact is so patent, as appeared by the newspaper controversy, by the speeches of candidates during the canvass, and the speech of Gov. Walker after the election, at Binghampton, N. Y., that we conceive it unnecessary to lengthen these remarks by citing special proofs. The Leagues that supported Wells were characterized as the *"organized ignorance"* of the State, &c. Now, how stands the *Standard* and its party in North Carolina in relation to the Leagues? It is a fact substantiated by Governor Holden's proclamation, or advertisement, over his own signature, that, up to a recent period, he was connected with the Leagues as their President, nor has there ever appeared, in any shape or form, one word from him to show that he has changed his views and feelings in regard to the Leagues, or that he disapproves such secret organizations, or has advised the disbanding of them. At the same time, it is a notorious fact that many of the leading members of the Radical party in the State, and those in most intimate official relationship with the Governor, are, now, officers and members of these League associations.

We ask the candid reader, does these facts show the *Standard* and its party most in affiliation with the Walker or the Wells party of Virginia? Rather, does not the facts fully identify them with the "organized ignorance," which was the most powerful obstacle to success the Walker Conservatives had to contend against? Let the Governor and the leading members of the Radical party in this State, backed by the voice and influence of their organ, the *Standard*, come out and advise the disbandment of the Leagues, and absolve the members thereof from the extra judicial oaths they have imposed upon them, and we, and the people at large, will have more faith in the *Standard's* claims to brotherhood with the triumphant Conservative party of Virginia, the result of which is to have such "an influence throughout the country, but most strongly in the South."

In regard to the "proscription for opinion's sake," which the *Standard* now seems disposed to condemn; we will only say, we should feel more confidence in its professions, if its former *acts*, and the course of its party, had been more in accordance with these professions. There are ten or fifteen thousand white natives of this State who are debarred by the XIVth Amendment, of the rights and privileges of citizens, and must so remain debarred until Congress, in its grace and generosity, shall remove the disabilities under which they rest. It is a fact well known that, at any time since the adoption of the amendment, the removal of the disabilities of any one in the State could be procured on the recommendation of Governor Holden and the Radical Legislature, and it is a fact equally well known, that the disabilities of none, or at least of an extremely small number, have been removed, except of those who have given in their adherence to the Radical party. This, it looks to us, is a most extraordinary fact, if we disconnect it with the idea of proscription for opinion's sake. Let the *Standard* and Gov. Holden, and the Republican party of this State, recommend—(it would be more to the point if they could show that they had heretofore recommended)—universal amnesty to, and the removal of all political disabilities from, the native white citizens of the State, and we shall be prepared to place more implicit confidence in the professions of liberality on the party crying out against proscription.

That anti-proscriptive liberality, now professed by the *Standard*, and which clothes itself in the language of the Conservative platform that carried Walker triumphantly through the Virginia struggle, of "universal suffrage and general amnesty," would be made more fully to appear, could the *Standard* show the least expression of sympathy for the Walker Conservatives; or any word of disapproval or condemnation of the Wells' policy, prior to the Virginia election.

Should the *Standard* succeed, by any sophistical arguments it may bring forward, to make out a plausible case for itself and its party, in regard to the matters we have here briefly touched upon, there will yet remain a long and full explanation, in regard to the acts of its party in this State, and the effects of its policy upon the material interests of the State, and of her future prospects, financially, and otherwise. Of which we shall have something to say hereafter.

EDITOR FOR THE NEW YORK *TIMES*.—Hon. John Bigelow, formerly minister to France, is announced to succeed Mr. Raymond as Editor of the *Times*.

MUTILATED CURRENCY.—The following extracts from a circular issued from the Treasury Department at Washington, may furnish some useful hints to persons having mutilated currency on hand:

Mutilated Currency is redeemable by the Treasurer of the United States at Washington, D. C., and by no other officer.

Notes presented for redemption, the abrasion or loss of substance from which does not exceed one twentieth of their original proportions, will be redeemed as whole notes.

1. Fragments of Notes will not be redeemed *in full*, except when proof is adduced by affidavit that the *missing parts of such notes have been* TOTALLY DESTROYED, and stating the CAUSE and MANNER of destruction. *Less than half of a note is not redeemable at all*, unless accompanied by such affidavit when presented by the holder. The character of the affidavit MUST BE CERTIFIED to be good by a magistrate or other public officer.

2. In the absence of such affidavit, fragments of notes, exceeding by measurement one-half their original surface, will be redeemed in their proportion to the whole note, reckoning, as a general rule, by twentieths.

3. Mutilated notes which have been torn, no matter how much, but of which all the fragments are returned—or defaced, no matter how badly, so that it is certain they are genuine—will be redeemed at their full face value on presentation.

4. Fragments of legal tender notes, for which less than the full value has been paid, will be retained six months, to enable owners to return to the Treasury missing parts of such notes, and receive the amount previously withheld. Such *return* should give the date of the letter from this office transmitting the original remittance.

Direct all remittances intended for redemption to *"Treasurer of the United States, Washington, D. C."*

ROCKINGHAM CO., N. C.,
Oregonville Township, July 17, 1869.

A meeting of the Conservative citizens of Oregonville Township was held at Ruffin Station, on Saturday the 17th July 1869, and on motion of Maj. Wm. D. Bethell the Hon D. W. Courts, was called to the Chair and F. Watkins was appointed Secretary. The Chairman then arose and in a few appropriate words explained the object of the meeting, to be to nominate suitable Township officers, it was then moved by F. Watkins that the following Resolutions, be read and the sense of the meeting be taken thereon.

Resolved, That it is the sense of this Convention that in the selection of candidates to fill the offices of Justices of the Peace and Clerk of the board of Commissioners, we prefer men of good reputation, who have the good of our country at heart and who are not concerned about the little paltry fees attached to the office, and who will bring weight and character to the office and not expect the office to bring character to them, and thus a wholesome influence will be brought to bear upon society, thereby greatly benefiting the same by a just and impartial administration of the law.

Resolved, That we select men of sense, of information who will have capacity to form a judgment, without having to consult Dick, Tom or Harry, thus securing a uniform and systematical administration of the law.

Resolved, Further that each of us will support the nominees of this Convention, by using all fair and honorable means in our power.

The above resolutions were put and carried without a dissent.

On motion of Maj. Bethell, a Committee of six gentlemen were appointed by the Chair, to recommend suitable persons for nominees, whereupon the Chair appointed: for Dan River, Maj. Wm. D. Bethell, and Green Daniel, Esq; for Ruffin Station, West Fitzgerrell, and Dr. James Courts; for Lanesville, Dr. J. P. Bailey and Wm. P. Watt, Esq. The Committee retired and in a short time reported the names of Samuel B. Cobb and R. A. Holderby, for Justices of the Peace; for Constable, John W. Scavenant; for Clerk of the board, Green Daniel; for School Committee, Richard Harris, John G. Watkins, Henry C. Thomas.

On motion the meeting adjourned *sine die*.

D. W. COURTS, Chairman.
F. WATKINS, Secretary.

NEW COUNTERFEITS.—The increasing number of counterfeit notes, as well as the professional experts who pass the same with plausible and perfect facility, should cause people to look sharp when money is either presented to them to be changed or in payment for a purchase. There has been put in circulation, within a few days, a well executed counterfeit $20 note, copied after the treasury issue, and well calculated to deceive. A large number of counterfeits of the various denominations of fractional currency are also afloat, and too much precaution cannot be used to guard against them. —*Phila. Inquirer.*

A NOBLE BOY.—A boy of fifteen, in Blackhawk county, Ohio, whose father died three years ago, leaving his widow and son an eighty acre farm burdened with a $1,000 mortgage, has taken whole and sole charge of the farm, hiring help only in seed time, harvest and threshing, paid off the mortgage, purchased a harvester, a sulky plow, a wagon and set of harness, besides an $80 sewing machine for his mother, and is now out of debt. The lad besides attends school three months in each winter.

A man has appeared in a country district of Poland who pretends to be our Saviour come again to save the world. He has selected 12 apostles and preted to heal the sick. Having gained considerable popularity, he is now turning to politics. He denounces the peasantry for their indifference to the rising of 1863, calls upon them to repent and prepare for new efforts, and prophecies the speedy re establishment of the old Polish Kingdom. The authorities might look with indifference upon the religious pretensions of the impostor; but they naturally do not feel quite so easy about passionate appeals to the people to rise against the existing government. They are, therefore, using all means to put the movement down. They are apparently finding the task a somewhat more difficult one than they had at first anticipated.

[From the Baltimore Sun.]

THE COTTON CROP OF 1869 AND THE LABOR QUESTION.

At this season of the year, when throughout the cotton producing region of the South the work of the hoe and the plow is about to be exchanged for that of the fingers and baskets of the cotton pickers, one meets usually with a good deal of speculation in the newspapers as to the probable yield of the crop. The general estimate is a large one. There is every probability that it will be found altogether too large.—It is true the season so far has been upon the whole a favorable one. The vicissitudes of drought and rain, of hot worm and caterpillar have been those of the average cotton year. But it must be remembered that, although the work of cultivation is nearly over, the crop is very far from being made. An untoward season in the latter part of August or early in September may yet cut down the crop from one-third to one-fourth of the promised yield, while early frosts or a long continuance of bad weather in the fall may greatly interfere with saving what is already made. Nor should too much reliance be placed on these speculations in favor of a large crop which are based upon the regularity and industry with which the freedmen have been thus far working, or upon the inducement which the high price of cotton may be supposed to have held out to the planter to put more breadth of land into cultivation. The good behavior of the laborers is, after all, matter of comparison merely, not with the careful and pains-taking cultivation of former years, but with that of these same hands immediately after emancipation, or with what might have been expected from them under the temptations and influences to which they have been exposed. As to the supposed increase in the number of acres under cultivation, there is a limit imposed by the scarcity of labor. The best answer to both suggestions is to be found in the proceedings of the late immigration convention at Memphis, and in the universal demand throughout the South for more labor, and that of a kind that can be depended upon.

The cultivation of cotton is one of the most exacting forms of agriculture known. It demands not only incessant supervision but incessant labor. No sooner is the crop of one year saved than preparation begins for another. From the time the plant appears, a tiny leaflet upon the ridge of the cotton-bed, until it towers shoulder-high or even higher, shading the intermediate rows with the density of the foliage, and laden with its wealth of forms and blooms and bolls, it requires constant care. The hoe and plow are never idle in the cotton patch until the growth of the plant and the opening of the bolls render further cultivation impossible. Nor is the gathering of the crop less a matter of anxious labor. In a good year, and upon good land, it is said good hands can make twice as much cotton as they can gather. In former years it was not an unusual thing for planters to start their plows bedding up fields which were still white with unpicked cotton.

The changes which the altered status of the laborers has wrought in the conditions under which cotton is grown in the South are numerous. In the first place—and this necessarily prevents any considerable addition to the area already cultivated—very little land, as a general rule, is now plowed before Christmas. The negroes, who are hired by the year, consider themselves only interested in that year's crop. They prefer to reserve to themselves the privilege of saying at Christmas whether or not they will remain. They don't choose to commit themselves in advance to stay another year, or to expend labor in preparing for a crop which they may have no hand in cultivating. Then, the work of cultivation at every stage is more carelessly done than in former years. The "trash gang," as it is called, of the plantation, composed of the younger children of both sexes, who, in old times, were made very useful, are now said to be totally beyond the reach of control or discipline. The women are scarcely less so. In fact both of these classes do far less work in the field than formerly. Information is to the effect also that all the younger hands who have grown up since the war lack the steadiness and careful training of the older set; that sickness is much more common among them at all seasons of the year, from the absence of that compulsory medical supervision and sanitary police which the owners formerly exercised over their property, but which, it is said, freedmen will by no manner of means submit to. All this, without taking into consideration the other deficiencies and drawbacks incident to a want of forethought and a proper sense of the obligation of contracts by the untutored freedmen, sufficiently accounts for that demand for labor of a different kind which the proposed coming of the Chinese, may possibly supply. But of course this supply must be offered, if at all, in a manner not to conflict with our law against the Coolie trade.

That which the South wants is not so much cheap labor—though cheap labor necessarily implies abundant labor—as it is more labor, and that of a sort which can be trusted and depended upon for that patient, faithful, pains taking, unremitting toil which the cultivation of cotton and the other great staples of the South require.—Emigrants of every nation can find a home and a welcome in the South, but her special need is agricultural laborers capable of going into the cotton field, the corn field and the rice field, and performing, under a burning sun, the task which the negroes once did, but have ceased to do well. If it be asked what is to become of the negro, it may be answered that the very competition thus introduced will have a beneficial effect upon him, in rousing his dormant energies, teaching him the necessity of industry and application, and making him thus more useful to himself and to the community. As the supply of labor increases, and greater confidence is felt in its quality, more land will be put into cultivation. Thus the demand will, in turn, be stimulated by the supply, and the effect eventually will be not so much to cheapen labor as to raise the standard and improve the quality of labor, and with it the condition of the laboring man, while adding to the production and wealth of society.

POLITICS IN TEXAS.—Ex-Gov. Throckmorton, of Texas, in a speech to the citizens of Cook county, recently, said that while he disliked some portions of the proposed constitution, he thought that the interests of the people of the State demanded its adoption. He thought the people had been unjustly accused of lawlessness and crime, the mass having been condemned for the acts of the few.

A dispatch from Omaha is to the effect that W. Davies and his associates, sub contractors, brought suit on Saturday in the State District Court in that city against Oliver Ames and other contractors of the Union Pacific Railroad, for $604,000. The amount claimed is due for work performed, money expended and a breach of contract. The defendants say that the claimant and his associates are already overpaid $57,000.

W. M. Haynie, of Sacramento, who is engaged in raising silk worms, has five hundred thousand in one night. He hatched them by artificial heat, and attempted to economise by running steam pipes through the building. But condensation produced creosote, which poisoned the worms.

For the Sentinel.

HILLSBORO, July 27, 1869.

Mr. Editor.—A good rain is now falling, which is the first we have had in five or six weeks.

We have settled our Township difficulties. We had, as you are aware, too many candidates. None would withdraw. On yesterday the people at Miles' resolved to settle the question for them, by voting, on Saturday next, who shall be the candidates to fill the various offices of the Township.

In Flat River Township, we fear our friends are asleep. Only fifteen men went out to nominate candidates, as we are in hopes. Can the people of that Township be aware of the importance of the election. When it is too late they may find it out.

Our crops have not suffered as they have in Wake and the sandy lands. Red land does not suffer because of too much rain as does the sandy soil. Red land will stand dry weather much better than a sandy soil. Until the late, or last, crop, we have had not more than one good wheat crop for ten years.

You will do much good by calling the attention of our people to the next wheat crop.

I have heard more talk of bees and honey, since you called the attention of your readers to the subject, than I have heard in all of ten years. Both Town and County are interested in the subject. One gentleman of the Town stated, yesterday, he had twenty-five pounds of honey made by one swarm of bees. He declared it to be the easiest money he ever made.

Our people will not take agricultural papers. You can reach them by putting agricultural articles in the *Sentinel*, and the *Sentinel* will not be less readable on account of it.

Very Truly Yours,
A. W.

MISCELLANEOUS.

Valuable Property for Sale in Raleigh and Wake County.

PURSUANT to a decree of the Court of Equity for this County, I, as Commissioner, will sell at the Court House, to the highest bidder, all of the Real Estate of the late Sarah Stronach, dec'd, to wit:

One House and Lot, in the City of Raleigh, containing two acres, more or less; said house in fair condition, has six rooms and good basement. On the Lot there is a very fine Well of Water and all necessary out-houses. The fences are nearly all of new and sound timber, and the soil in fine condition. There are quite a number of Shade and Fruit Trees on the premises. Also a Lot containing three-fourths of an acre, more or less, near the above mentioned one. Both Lots are on Hargett Street, just beyond the city Cemetery, and on the direct road to the "State Fair Grounds." Also a Tract of Land about five miles from the City, which is very well timbered, and adjoins the lands of W. E. Pierce and others.

This property will be sold on the 25th day of August A. D. 1869.

Terms made known on day of sale.

BUFFALO SPRINGS.

THIS ANCIENT AND TIME HONORED watering place is situated in the upper end of Mecklenburg county, Va., about seven miles west of Clarksville, and in about fifteen miles of Scottsburg Depot, on the Richmond and Danville Railroad, where a stage will meet the train daily, and convey passengers to the Springs.

The water of this Spring gushes out of the crevice of a rock at the foot of a gradually sloping hill, and is thrown up at a rate of about forty-five gallons per hour. On its way to the neighboring brook into which it empties, it tinges the mud of a dark bluish color, emitting to strangers a rather offensive, sulphurous odor. The water is perfectly limpid and pure, and has a slightly brackish taste mingled with the flavor and odor of sulphureted hydrogen gas, which enters largely into its composition, as the following analysis will show:

In a wine gallon, gaseous contents: sulphuretted hydrogen gas, 0.5040 grs., or 1.2† cubic inches. Solid contents: sulphate of magnesia, 8 grs; sulphate of lime, 3.5 grs; sulphate of protoxide of iron, 2.6 grs; chloride of sodium, a trace; chloride of magnesium, a trace; sulphate of soda, 1.5 grs; total weight of gaseous and solid contents, 15.5080 grs; temperature 60 degrees Fahrenheit; specific gravity, 1.058.

The medicinal properties of this water have been a matter of notoriety for nearly a century. In diseases of the liver, stomach, urinary organs, female complaints, dropsy, general debility; &c., &c., this water is second to no other in the State; and were it situated among the watering places in Virginia, surrounded by the sublime scenery of that portion of the State, the famous Greenbrier White Sulphur would find in old Buffalo no mean rival.

The rates of Board are $2 50 per day, $12,50 per week, $40 per month. Children, under ten years of age and colored servants, half price. These prices are as low as good board can be furnished, and *I intend to give good board.*

From the numerous letters I have received and the engagements of board already made, I expect the fullest season I have had since the war. I pledge myself to the public (who may favor me with their patronage) to leave nothing in love for their comfort which I can do.

Your ob't servant,

DEATH OF JAMES A. MOORE, Esq.—This much esteemed citizen of Raleigh, died at Hickory Station, on the Western North Carolina Railroad, on Monday, 26th inst., on his return home from the Catawba Springs, where he had been staying for several weeks in hopes of improving his health. His remains were brought down this morning, and his funeral took place at 11 o'clock, the religious services conducted by Rev. T. H. Pritchard, of the Baptist Church, and Masonic ceremonies performed by Hiram Lodge.

VOCAL CURIOSITY.—The musical performance advertised to come off at Common's Hall, to-morrow evening, is something unique in the music line. The performer, whose musical talent have never been cultivated by the rules of the science, renders the familiar airs of the day in a most astounding manner. We are not very good at description, especially of a subject so new to us, and, therefore, advise all to go to-morrow night, and hear this new musical wonder.

WESLEYAN ACADEMY.—The exercises of this institution will open on Monday next, in the school building on the lot adjoining the Methodist Episcopal Church. The services of Mr. James W. Reid, son of Rev. N. F. Reid, have been secured for the next session. Mr. Reid, as mentioned by us some time since, is a graduate of Emory and Henry College, in which he was employed as tutor for fifteen months, and is a gentleman eminently qualified for the position to which he has been chosen.

LOST.—Somewhere between Mrs. Sorrell's Bakery and the Exchange Hotel, a Portmonai, containing forty or fifty dollars.—The finder will be liberally rewarded by leaving it at the *Sentinel* office.

STEALING.—The art of stealing does not seem to be likely to become obsolete. Recently some one stole and broke up a bark-mill belonging to Dr. F. J. Haywood and sold it to an establishment in town, as old iron. The name of the rogue is known, but the police does not appear fortunate in making his arrest. Some other rogue, or perhaps the same, has stolen a quantity of new lead pipe, used for conveying water through the new Hotel, building, north of Capitol Square, and sold it to keep company with the bark mill.

THE LEAD MINES OF WAKE.—We learn that Messrs. Winder and Murray have commenced arrangements for working the Blacklead Mines, situated some six miles North West of Raleigh. The operatives have been engaged in cleaning off the earth and gathering up the scattered lead about the mill, and getting timbers for re-building the dam on Mining Creek. A corps of miners will soon be employed in getting out and preparing the lead on an extensive scale.

THESE LETTERS.—We publish on our first page to-day, letters from prominent physicians of Raleigh, to the North Carolina Land Company, in regard to the health statue of our State. We promised to insert these letters several days ago, but the Supreme Court reports forced us to postpone. We have a very interesting letter which we clip from the Courtland County (N. Y.) *Journal*, written from Raleigh, which we intend to publish as soon as we can make room for it.

IMPROVEMENTS OF THE AGE.—In former times it would have been considered indelicate to make a lady's dress the subject of newspaper gossip; but in this our day, the Jenkinses who write for sensation journals from watering places and other fashionable resorts, have so far improved on old ideas as to tell us all about the outward dress, and, frequently, of the garment next to it. The progress of the age will, before very long, we doubt not, permit, if it does not demand, a full description, not only of the dress and skirt, but of *all* the garments worn, including the little artistic fabrications adopted by the fair to give beauty and symmetry to the form. Indeed, the latter is not unfrequently the subject of newspaper allusion and comment already. Truly we are a modest and, at the same time, a progressive and curious people.

A RELIC OF THE PAST.—We have before us a copy of the Petersburg (Va.) *Times*, of the date of March 23rd, 1829, edited by Francis G. Yancey, and published weekly by Henry White, at $3 per annum.

It is a paper of good size and well printed, containing a synopsis of foreign and domestic news, poetry, anecdotes, with a good sprinkling of advertisements.

A striking fact in relation to this paper is, that although printed but forty years ago, it has not a word about Railroads, telegraphs or photographs in its columns.

PIC-NIC.—The Spiritualists held their annual pic-nic, at Elm Park, N. Y., on Friday last. There were several hundred persons assembled, including the officers of the organized association, mesmerizers, oral and writing mediums, neophites, and a small sprinkling of sceptics, or scoffers.—What number of spirits joined in the festivities, the papers do not report; but as the ceremonies closed at 10 o'clock at night, we suppose there was not much spirits present.

ANNOUNCEMENT OF PRIZES.

5th. Premium $50, entrance $5, distance ½ mile, weight for age, open to all, three to run.

Judges to be elected, and rules regulated by the New York Jockey Club.

The above is additional to the regular list of Premiums, which will be published in about ten days, and will present a splendid Programme.

All papers will please copy.

PETER R. DAVIS, President
Central Agricultural Society.
G. BADGER HARRIS, Secretary.

A DISTINCTION WITH A DIFFERENCE.—When the *Sentinel* tells a lie by mistake, one day, it corrects it the next day by telling the truth; when the *Standard* tells the truth one day, by mistake, it corrects it next day by telling a —— umph! here's the *devil* brawling for copy—take it and go.

WIDE SPREAD USEFULNESS.—The relief of the wants of the deserving poor, and especially of widows and orphans, whose natural provider has been lost to them, is a subject which has been forced upon the attention of communities and individuals through all history, and many plans of systematic relief have been discussed.—Great good has been done by the aid thus given to those unable to help themselves; but, after all, charity is not the best way in which such help can be secured. To accept of alms involves, in some degree, a loss of self-respect and independence. What is wanted is some system by which, at small gradual cost, every laboring man may make sure of leaving to his family, when death takes him away, a sum sufficient to keep the wolf from the door. Such a plan is offered to the public in the advertisement of the National Life Insurance Company in another column. The general features of the management of this Company are there noted, and the local agents will cheerfully give any further information as to the peculiar advantages offered. The "National Life" was chartered by Congress less than one year ago; it began business in August last, having then to establish its entire system of agencies, and to distribute information among the people as to its character and purposes. Both of these things have been done; the entire country and the Canadian Dominion are now covered by its general and sub agencies, and liberal advertising has made the name of the Company familiar throughout the land.—The result has surprised even its incorporators and officers. In ten months nearly 5,400 policies, covering over $15,000,000 insurance have been issued, this amount of business being nearly double that ever done by any other Company in the world during the entire first year of its existence. Such an unprecedented success should not only inspire unusual confidence in the organization so emphatically endorsed, but be the subject of general congratulation that the new Company has been able to do so much for the future comfort of the families insured. Every family thus protected from want is a proportionate diminution of future taxation, temptation and crime.

Low cash rates, and a plain business contract of so much insurance for so much money (avoiding all uncertainties of notes or dividends) are prominent features of the plan pursued by the National Life. Its capital is ample, its Officers and Directors men of unquestioned honor and ability, and its system of business is straightforward and business like. It deserves its success, and it has already taken front rank among institutions of its kind.

See advertisement of P. F. Pescud, the successful and very popular General Agent, for N. C., in another column.

From the Norfolk Daily Journal July 13, 1869.

NEW BUT RELIABLE.—A new remedy for purifying the blood and restoring the liver and kidneys to healthy action, and invigorating the nervous system, has recently been prepared and is now offered for sale to the public by Dr. J. J. LAWRENCE, of this city, under the name of KOSKOO.

The gentleman by whom this medicine is prepared is not a quack, but a gentleman of well-known integrity in Norfolk, a man of scientific attainments, and a successful practitioner of medicine, and who has gained a national reputation as discoverer of the celebrated remedy—Rosadalis.

This new medicine, Koskoo, bids fair to outstrip in popularity the former preparations of Dr. Lawrence, and become not only a State but a National medicine.

On Saturday last, and for many days past, the sale in the Norfolk office has amounted to hundreds of bottles, and the demand is still for Koskoo, the greatest remedy of modern times.

We wish Dr. Lawrence abundant success in the sale of his health restoring medicines, and feel that in so doing we direct the attention of the public to a gentleman whose merits deserve a liberal and generous patronage.

STATE NEWS.

DRILLING.—The Governor's colored militia in Newbern are drilling regularly. It seems, however, that the white officers will not drill them in the day light, leaving it to the colored subalterns. We suppose from all this military preparation, there is a war cloud arising somewhere. Let us have several *pieces*.

We clip the following from the Hillsboro *Recorder*:

NEW POST OFFICE.—The P. M. General has established the Post office at Cedar Grove, Orange county, on route No. 5206 from Hillsboro to Milton, and has appointed John D. Corbin, Postmaster.

A MULE SHOT.—A mule belonging to George N. Thompson, Esq., of Leasburg, was shot last week. It was one of the finest mules he had. The leg is broken and all attempts to mend and heal have failed. It was supposed it was done at night by some freedmen, as they are of late frequently firing pistols off at night.

A SHOEMAKER DIES ON HIS BENCH.—Dick Grubbs—a shoemaker in Leasburg—died very suddenly last Saturday evening. He was mending a shoe, felt unwell, laid down and died.

UNFOUNDED RUMOR.—By a card in the Wilmington *Journal* we learn that Mrs. Ransom's seminary for young ladies, will be re-opened in that city, on the 7th October next. The rumor that she would remove to another point is stated in the card to be unfounded.

NEW LOCAL.—Gaston Paul is announced as city editor of the Charlotte *Observer*, and gets up a very respectable column, for his first effort. We welcome him to the fraternity, with the hope that he may not become disgusted and quit before becoming hardened.

SAD DEATH—A MAN COVERED UP IN A WELL.—Yesterday afternoon Samuel Pedin, a colored man engaged in digging a well on the premises of Larry Williams, colored, had the misfortune to lose his life by the caving in of the earth, which completely covered him, burying his body twelve feet or more under the dirt. It seems that the deceased had neglected to plank the curb frame on one side, and the soil being composed chiefly of sand was not sufficiently compact to prevent caving in.

The deceased was a married man, and was mentioned in favorable terms by those who knew him. His remains were taken care of by No. 3 colored fire company, of which organization he was a member.—*Wilmington Star.*

SPLENDID BUILDING.—The new banking house of T. W. Dewey & Co., in Charlotte, which is just being finished off, is said to be the finest building of the kind in the State.

In speaking of this new building the Charlotte *Times* says:

Somewhat accustomed in times past to see rooms exquisitely finished, we think we know when work done and the material used are up to the highest standard of taste and skill, and we unhesitatingly pronounce this as near Fresco and that too of the best character, as any we ever saw. The figure of the Goddess of Liberty is a study, and the panelling is perfect. The whole is varnished over, and we are told will last twenty years. Few could tell it from Fresco; indeed, without the expense, it has almost all its beauty and finish.

This beautiful work was done by Mr. H. T. Clawson, of Raleigh, who is an artist of taste and skill. We trust he may receive encouragement enough to induce him to establish a branch of his business here.

THE BARN BURNING IN ORANGE.—The Hillsboro *Recorder* has the following in relation to the barn burning in Orange county on Friday night last:

On Friday night last three of the hardest working farmers of our section were reduced to poverty by the torch of the incendiary. The barn of Franklin Minor with 700 shocks of wheat, of Jesse Morrow with 500 shocks of wheat—no telling the amount of oats, besides a mare and two fine mules that were destroyed—and the barn of Wm. Jones with about 800 shocks of wheat—machine—everything. All were on fire at the same time, and the distance was about three miles apart.

WHO DID IT.

Wash and Nelse—two strapping black young devils with the faces of night fiends have been arrested for the deed. They are the sons of old Jeff Morrow.

WHY THEY DID IT.

It seems that old Jeff—the daddy of these negroes, cropped last year with William Jones. Jones—last Winter—gave him legal warning to leave his land. Jeff refused.—A jury of five Justices of Peace was then called to settle the case and they decided that the old negro should leave. And Franklin Minor—assisted by Jesse Morrow and others—was the appointed officer to oust old Jeff from the place. A short while after this, two negro boys who lived close by at Mr. Oldham's—in going to see their father—stopped at a fire that old Jeff and his sons were camping by. These boys heard Wash and Nelse say that Morrow's, Jones' and Minor's barns wouldn't stand the year out. And old Jeff spoke up and said "wait till they get sumthin in 'em."—The boys went on and told their father what they heard, and he told them to say nothing and wait and see if it come to pass. He has since died.

THE NAIL CLINCHED.

And it did "come to pass" that these same boys were at Mr. Oldham's when Minor sent Alveus Jones—a negro—over to Mr. Oldham to get him to come and help put out his barn. Mr. Oldham happened to be unwell, and he waked up these boys and sent them out to see who were at the gate. (Nothing was then *known* of Jones' and Morrow's barns burning) While the negro boys were on their way to the gate a son of Mr. Oldham went to the window and asked the colored man, James, what was the matter. He told him the barn of Franklin Minor was burning down. And then it was that these boys cried out, "yes, and Wash and Nelse said da was gwine to burn Mr. Morrow's and Mr. Jones' too."—And all three were then burning. Upon this evidence the negroes have been lodged in jail at this place.

DISTILLING CITY GARBAGE.—It is reported that a company has established a manufactory in Chicago for the purpose of distilling alcohol and extricating soap grease from the ordinary city garbage. The process, which is patented, consists in taking the garbage just as it is hauled off in the city carts, dumping it into tight tanks, and boiling it six hours at a temperature of 212 degrees Fahrenheit. The whole mass is then dissolved and run into tubs and fermented by the aid of yeast. The soap grease and impurities rise to the top of the tubs, and are skimmed off, and the residuum is distilled in the regular way. According to the estimates of the inventor, each barrel of garbage will yield three pounds of soap grease and four gallons of proof spirits. The soap grease is as good as that obtained in the usual way, but the alcohol betrays its origin by an odor which requires further processes for its removal.

AFTERNOON DISPATCHES.

FROM WASHINGTON.

WASHINGTON, July 28, M.—It is intimated that McDowell will relieve Canby in Virginia, who will be sent to Mississippi.

Great interest attaches to next Friday's Cabinet meeting when the test oath question in Virginia will be decided. In the meantime it is stated positively that Canby has orders to take no action in the matter.

THE LABOR QUESTION

BALTIMORE, July 28, M.—The Colored Labor Convention has passed resolutions that the objection of white men to work with negroes must be overcome, and calling a National Convention to meet in Baltimore in December, and invoking Congress to drive the Chinese labor out of the country.

FROM CINCINNATI.

CINCINNATI, July 28, M.—The passenger train on the Memphis and Ohio Railroad, near Clarksville, Tennessee, went through the trestle over Budd's Creek; the entire train with the exception of one car was burnt. The engineer and fireman with three or four others were killed and thirty badly wounded.

"**Fresh as a Maiden's Blush**" is the pure peachy Complexion which follows the use of Hagan's Magnolia Balm. It is the True Secret of Beauty. Fashionable Ladies in Society understand this.

The Magnolia Balm changes the rustic Country Girl into a City Belle more rapidly than any other one thing.

Redness, Sunburn, Tan, Freckles, Blotches and all effects of the Summer Sun disappear where it is used, and a genial, cultivated, fresh expression is obtained which rivals the Bloom of Youth. Beauty is possible to all who will invest 75 cents at any respectable store and insist on getting the Magnolia Balm.

ÆTNA

LIFE INSURANCE COMPANY,

JANUARY 1ST., 1869.

Assets $10,462,531,75.

Amount of Income 6,227,071.

SURPLUS OVER LIABILITIES 2,675,999,48.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

SPARKLING CATAWBA SPRINGS,
CATAWBA COUNTY, N. C.

THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.

Being situated in the northwestern part of the State, in a country remarkable for its beauty and healthfulness—these, together with the virtue of the waters, make it one of the most desirable watering places to be found.

The MINERAL WATERS of these Springs are the White and Blue Sulphur and Chalybeate or Iron, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility dyspepsia, rheumatism, &c.

The proprietor having spent a large amount in additional buildings and improvements generally, these Springs are now in a fine condition, rooms large and pleasant, and good cottages containing from two to six rooms each, well arranged for either large or small families.

Good TEN PIN ALLEYS, BILLIARD TABLES and other amusements.

FINE BATH HOUSES, for Pool, Plunge or Shower Bath, Sulphur Bath, Hot or Cold.

A GOOD BAND OF MUSIC

Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.

Having secured the services of Mr. J. N. CARTER, of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.

The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Springs' depot, every morning, (Sundays excepted,) in connection with the North Carolina Railroad, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well-shaded road to the Springs—a distance of six miles.

As an inducement for families and parties to spend two months or more, I have concluded to put board down at the following low rates:

BOARD:

For one single month,	$50 00
For two or more months, $40 per month, or at that rate.	
Per week,	16 00
Per day,	2 50

Children under ten years of age and colored servants, half price. No charge for infants or children under two years of age.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are of a truly marvellous character. Inveterate cases of Scrofula, where the system seemed utterly given up to corruption, have yielded to this compound of anti-strumous virtues. Disorders of a scrofulous type, and affections which are merely aggravated by the presence of scrofulous matter, have been radically cured in such numerous instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver. These facts make the occasional use of the *Sarsaparilla* as a preventive, advisable.

It is a mistake to suppose that so long as no eruptions or humors appear, there must be no scrofulous taint. These forms of derangement may never occur, and yet the vital forces of the body be so reduced by its subtle agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofula is strictly hereditary. It does, indeed, descend from parent to child, but is also engendered in persons born of pure blood. Low living, indigestion, foul air, licentious habits, uncleanliness, and the depressing vices generally, produce it. Weakly constitutions, where not fortified by the most constant and judicious care, are peculiarly liable to it. Yet the robust, also, whose turbid blood swells the veins with an apparently exuberant vitality, are often contaminated, and on the road to its consequences. Indeed, no class or condition can depend on immunity from it, nor feel insensible to the importance of an effectual remedy.

In *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Ears and Eyes*, and other eruptive or visible forms of the diseases caused primarily by the scrofulous infection, the *Sarsaparilla* is so efficient as to be indispensable. And in the more concealed forms, as in *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and other affections of the muscular and nervous systems, the *Sarsaparilla*, through its purifying power, removes the cause of the disorder and produces astonishing cures.

The sarsaparilla root of the tropics does not by itself achieve these results. It is aided by the extracts combined with it, of still greater power. So potent is this union of healing virtues, *Syphilis* or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases* in general, are commonly soon relieved and ultimately cured by the invigorating and purifying effect of our *Sarsaparilla*. *Rheumatism* and *Gout*, often dependent on the accumulation of extraneous matters in the blood, have their remedy also in this medicine. For *Liver Complaints*, torpidity, inflammation, abscess, etc., caused by rankling poisons in the blood, we unhesitatingly recommend the *Sarsaparilla*.

This medicine restores health and vigor where no specific disease can be distinguished. Its restorative power is soon felt by those who are *Languid, Listless, Despondent, Sleepless*, and filled with *Nervous Apprehensions* or *Fears*, or who are troubled with any other of those affections symptomatic of weakness. Many, after taking it for *General Debility*, have written us of the youthful vigor imparted to their nervous system, which seemed buoyant with that prolific life they thought had departed on the advance of age. Others, whose fountains of life were always sterile, acknowledge their obligations to it for an obvious change.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

WITHIN THY HEART-STRINGS.

Let me creep within thy heart-strings,
  Nestle there just like a dove,
For my nature is to fondle,
  And to live for those I love.

Those I love are easy numbered,
  For they are but very few ;
But I lavish my affection
  With a steadfast heart and true.

Every fiber of thy being
  I would have it mate with mine,
For to love and be beloved
  Is the one thing most divine.

Let me creep within thy heart-string
  Like a drove within its nest ;
In the sunshine of thy friendship
  Would I be forever blest.

Let me creep within thy heart-strings
  Like the tendrils of a vine,
Would I have our beings mingle
  And our sympathies entwine.

Let me creep within thy heart-strings
  Fanned by love's most holy breath ;
Sheltered from the storms of sorrow,
  Free from envy's living death.

Let me creep within thy heart-strings
  Like the perfume of the rose,
Deep within thy sacred temple
  Evermore to find repose.

Let me creep within thy heart-strings
  Like some melody divine,
Would I waken notes of gladness
  Pure as drops of holy wine.

Keep within thy spirit's temple
  One sweet spot where buds adorn
Think of me at evening vespers,
  Forget me not at morning's dawn.

Think of me in hours of gladness,
  When the soul is filled with mirth ;
And in moments of thy sadness,
  Then let thoughts of me have birth.

The Age of Progress.

We publish to-day, the first scheme in the sale of Real and Personal Estate—a Company chartered by the last Legislature, with a capital of one hundred and thirty thousand dollars, and with power to increase that amount to five hundred thousand dollars. An examination of the charter satisfies us that the Company is pursuing a legitimate business ; they are empowered to "dispose of Real and Personal Estate *in any mode or form* they may deem best," and "all laws, or clauses of laws, coming in conflict with said charter are hereby repealed." This is plain and unmistakable English, and we have no doubt the transactions of the Company will prove beneficial to the property holders of North Carolina. For example : Mr. A. owns a piece of real estate which he wishes to dispose of. He throws it upon the market, and fails to get a bid that would warrant him in making a deed. He then places it in the hands of the North Carolina Real and Personal Estate Agency, at a fair valuation, and the property is sold by chance—the owner gets his price—the Company a fair and reasonable compensation for selling—and some poor man, for *two dollars* comes in possession of a homestead which, under any other circumstances, he would not have owned.

In fact, we do not view the Company as a Lottery—it is what it purports to be, a simple Agency for the sale of property, for its true value, which, otherwise would be sacrificed

We refer our readers to the advertisement—the splendid real estate offered, and the other rich prizes, amounting in all to THREE THOUSAND AND ONE—and the reader will perceive, by the simple rule of division, that there is one prize to every twenty-four tickets.

The General Agent of the Company has given us a call, and assures us, that the success of the Company is no longer a problem. In thirty-five counties through which he has just traveled, he represents the people as being enthusiastic in favor of it—both as to investing, and the placing of property in the hands of the Company for sale. He represents that already, before the first grand drawing has taken place, applications to sell, amounting to half a million dollars, are on file in the Secretary's office.

We learn from the Raleigh papers, that the explanatory drawing which took place in the city of Raleigh, on Saturday last, passed off to the decided satisfaction of a large audience assembled in Tucker Hall to witness it.—*Wil. Post.*

One three cent stamp must accompany every order. All tickets will have the seal of the Company and signature of the Secretary.

We refer to any Merchant, Banker or other gentleman of standing in the city of Raleigh.
